Logo guide

How to use the Craft Hereford logo so it always looks its best.

Four versions

Badge

Our main logo. Use it whenever there's room: posters, flyers, cabinet signs, the website.

Icon

Hands and heart only. For small spaces: profile pictures, stickers, price tags, browser tabs.

Horizontal

For wide, short spaces: email signatures, banners, the top of letters and receipts.

Wordmark

The name on its own. For places where the hands already appear nearby, or for engraving.

Colour options

Pick the version that stands out best against the background.

Full colour
light backgrounds

White
dark backgrounds, photos

Blue
one-colour printing

Black
newsletters, stamps

White outline
vinyl on cabinet glass

Which file should I use?

PNG see-through background	Word, Canva, Facebook, Instagram, most everyday uses
JPG white background	Anywhere that won't accept PNG
PDF sharp at any size	Printers, sign makers, vinyl cutters, embroiderers
SVG sharp at any size	Websites and designers

PNGs come in small (500 px), medium (1500 px) and large (3000 px). Use small for screens and email, large for printing at home. Ready-made social media images, website icons and an email signature logo are in their own folders.

Colours

Craft blue
HEX #6894AE
RGB 104 148 174
CMYK 40 15 0 32

Cream
HEX #F7E1B2
RGB 247 225 178
CMYK 0 9 28 3

Deep blue
HEX #2F5568
RGB 47 85 104
CMYK 55 18 0 59

Soft cream
HEX #FDF6E7
RGB 253 246 231
CMYK 0 3 9 1

CMYK values are approximate. When printing, send the PDF files and ask the printer to match the colour to the HEX value.

Fonts

Comfortaa

Headings, and the lettering in the logo.

Quicksand

Everything else: paragraphs, labels, small print.

Both are free from fonts.google.com and can be used for anything, including commercial printing. Canva has both built in.

Space and size

Leave clear space around the logo of at least **a tenth of its width** (the dashed line). Don't crowd it with text or other logos.

Smallest sizes	print · screen
Badge	25 mm · 120 px
Icon	8 mm · 24 px
Horizontal	35 mm wide · 160 px
Wordmark	25 mm wide · 100 px

Please don't

Stretch or squash it | Change the colours | Tilt or rotate it | Add shadows or effects | Put it on busy patterns

And please don't retype the name in another font. Always use the logo files.
